RFID Global Solution's

SmartCart™

The mobile RFID enabled workspace solution that fits your requirements.

Innovative mobile RFID read station for 'on the go' performance

SmartCart™
Designed by RFID experts who understand your business needs

- **Rugged**
- **Completely Mobile**
- **Long Battery Life**
- **Recharges Quickly**
- **Operates on AC Power**
- **Focused Read Zone**
- **Network Interfaced**
- **Wireless Capable**

The SmartCart™ is a battery powered industrial cart with integrated RFID data collection equipment. It is designed for both mobile and stationary RFID applications. The SmartCart™ is an all-inclusive, industrially resilient, RFID enabled workspace solution. This system can be employed in a vast number of RFID applications in support of logistical, asset-tracking or security operations in almost any industrial or commercial setting.

The SmartCart's™ rugged construction provides the user with a durable and reliable RFID platform. The SmartCart™ contains RFID components from some of the most respected names in the business. These components have been time tested and proven reliable in countless RFID solutions throughout the world. Superior RF design provides a focused read field that allows for automatic data collection, while minimizing undesired reads. This enables the user to receive against Advanced Shipping Notices (ASNs), build outgoing Shipping Manifests, and enhance the accuracy of inventory tracking and control with little or no need for manual data collection.

Learn more about RFID Global Solution's products and services by calling our sales team at (866) RFID-123 or email us at sales@rfidgs.com

- Completely mobile, portable and *'Un-Cabled'*

- Scans 20 to 25 files in seconds

- Operates for 14+ hours on a full charge

- Event-driven reader configuration

- Manages local business logic, and processes "*Cleanses*", "*normalizes*" and filters data transferred to Enterprise systems

- Interfaces with any standard ODBC or JDBC compliant database.

- Large, easy to view touch screen

- Uses wireless or wired Ethernet

- Simple and easy to operate.

- Built-in remote management system

- Low-maintenance

Warranty

The RFIDGS SmartCart™ is warranted against defects in workmanship and materials for a period of 1 year (12 months) from date of shipment, provided the product remains unmodified and is operated under normal and proper conditions.

Physical Characteristics & Specifications

Composite Material: Powder Coat 16 ga. Steel frame and 12 ga. Brushed stainless steel work surface

Dimensions Frame: w 24 ¼" x L 24 3/8" x H 40 ¼"

Working Surface: w 25 1/8" x L 24 ¼"

Input Power: 110/220V, 12 V DC 500 watts

RFID: EPC Compliant
FCC Part 15 Approved
Feq: 902-928 MHz
(supports EPC Class 0, 0+,Gen 2)

Light Indicator: 12V neon light to indicate each read
